# About Medical Joyworks, LLC

Medical Joyworks (MJ) is a physician-led company, offering digital products and solutions to the medical sector. Over 400,000 customers—medical practitioners, students, medical schools, hospitals, governments, and pharmaceutical companies—trust MJ to become better physicians, increase sales, and innovate their business.

Our company was founded on October 15th, 2010 by Dr. Nayana Somaratna and Mr. Sandaruwan Gunathilake; and we have remained an entirely self-funded operation from the start. This has allowed us to build Medical Joyworks on core beliefs and principles, all reflected in our work and in our behavior towards ourselves and others.

To date, Medical Joyworks's learning apps have been downloaded over 7.1 million times in 226 countries and territories. Our apps have a combined average user rating of 4.8 out of 5 stars and have also been conferred numerous international awards. As to our medical content, it is generated in-house by a team of highly experienced practicing physicians.

All our content is peer reviewed by our International Medical Board, an all-volunteer body of more than 180 board-certified specialists and specialists in training from all over the world.

## Our Values

- We reflect our sophistication by *keeping things simple*.
- We like to *ask questions so that we can learn and progress better*.
- We also *welcome discussions in order to learn and progress better*.
- Our *better ideas are those supported by clear hypotheses and data*.
- We believe that *quality medical content must be based on research and evidence*.
- We build *products designed to solve real problems* faced by physicians.
- Our *products must remain neutral and unbiased* always.
- Our *products must remain accessible* to as many people as possible.
- We *learn the most when we are engaged*, and we can stay engaged by having fun.

# Clinical Odyssey for Organizations

Maximize your impact as an educator with a clinical skills development library built with content loved by millions worldwide.

Clinical Odyssey for Organizations is a unique clinical skills development tool for leaders who want to give medical students and teams more practical experience with diverse clinical challenges. It offers realistic, evidence-based content that is peer-reviewed by certified specialists from around the world; and is designed to accompany structured educational/training programs in universities, hospitals, pharmaceutical companies, and other healthcare-related businesses.

Clinical Odyssey for Organizations is an adaptation of our highly acclaimed Clinical Odyssey product, which is used by thousands of university students and practicing healthcare professionals each year for their own skills development needs.

If you want a rich library of evidence-based titles (Clinical Sense adventure scenarios, Explain Medicine reference articles, Prognosis: Your Diagnosis case studies, and more)—one that your users will love, and that will help them become better professionals faster—Clinical Odyssey for Organizations is for you.

## Benefits

- 1. Help others gain plenty of practical experience with 600+ learning modules.** Choose from a growing catalog of learning modules (LMs) that spans more than 500 conditions and diseases. LMs are succinct content units providing just the right amount of information needed to achieve a specific task and strengthen a clinical concept. You can assign one or more LMs to entire groups, or to single individuals, giving your users the chance to practice repeatedly, reinforcing important knowledge all the time and anywhere.
- 2. Enjoy peace of mind with authoritative and trustworthy content.** Rely on LMs carefully crafted in-house by experienced clinicians, and peer-reviewed by the members of the MJ International Medical Board (the MJ IMB). LMs have valuable metadata, including: specialties and organ systems explored, ICD 10 codes, and publication references. This information helps you decide which LMs work best for your users. In addition, all LMs pass a continuous quality assurance program that runs from their initial draft to their final retirement.
- 3. Gain more freedom with practical and user-friendly technology.** Plug Clinical Odyssey for Organizations into your LMS or use its cloud-based management console, whichever option you prefer. Clinical Odyssey for Organizations meets the Learning Tools Interoperability 1.3 standard (LTI 1.3), meaning that you can embed its LMs into Blackboard, Canvas, Moodle, or any other

LMS. When using the cloud-based management console, there is no need for software downloads or complex synchronizations. Just go online and get down to work easily.

**4. Understand your users' progress with detailed performance data.**

Understand how your users are progressing in their learning with rich data sets and analytics functions that show their use of Clinical Odyssey for Organizations. The data points captured can be standard or customized to your needs; while analytics functions cover group and individual performance per playable LM, the number of times an LM was accessed, the time spent on an LM, and more. Any data generated by your users is immediately accessible to you, and yours to keep.

**5. Solve tech and medical inquiries with a team dedicated to you.**

Clinical Odyssey for Organizations offers a support team ready to assist you during office hours or customized to meet your specific operational needs. The support team is a part of the product development and experience units, a setup ensuring that you will always receive the best response to any technical or clinical inquiries. Clinical inquiries support is also available for your users via physician-moderated discussion boards—should you want this extra help.

**6. Advance professionally with a product priced to let you do more.**

Clinical Odyssey for Organizations has plans designed to accommodate specific needs. Normally it is a pay-as-you-go service, billed monthly around the number of individual users who access it (no hidden fees); but other billing options are available. You can also decide whether your organization or end users pay for it. Best of

all, it is priced so that you can still afford other teaching resources, ensuring personalized learning for your students and teams, and greater professional flexibility for you.

## Content

Content in Clinical Odyssey for Organizations is available under four titles, each a didactic format tailored to meet your users' multiple learning styles and needs:

**Clinical Sense:**

Interactive scenarios to help improve a user's ability to appropriately manage a patient over time (from presentation to admission to discharge and follow-up). Scenarios provide relevant facts and succinct explanations behind the underlying diagnostic and management rationale. They are intended to cover medical knowledge in breadth, and take between 10 to 15 minutes to complete.

**Explain Medicine:**

Reference articles to help a user stay up to date by providing easy-to-understand facts that are directly backed by citations to papers in peer-reviewed journals or standard textbook chapters. Articles have information presented as fact-explanation pairs (i.e., a succinct fact is paired with a detailed explanation). They are intended to be read independently of one another, and take between 10 and 15 minutes to read.

**Prognosis: Your Diagnosis:**

Interactive case studies to help improve a user's ability to identify the most appropriate investigations and optimal presentations, giving comprehensive explanations behind the underlying clinical thought process and rationale supporting today's most appropriate interventions. Case studies are highly focused. They are intended to cover medical knowledge

in depth, and take between five and 10 minutes to complete.

### **QBank Prepper (New!):**

Multiple-choice questions (MCQs) to help focus a user's test-prep time on medical knowledge blocks that can be more easily understood and recalled. MCQs provide relevant facts and succinct explanations justifying the rationale for each best answer recommended. They are properly backed by citations to papers in peer-reviewed journals or standard textbook chapters, can be used independently of one another, and take between one and two minutes to complete.

## **The learning module**

In Clinical Odyssey for Organizations every Clinical Sense scenario, Explain Medicine article, Prognosis: Your Diagnosis case, and QBank Prepper MCQ is a learning module (LM).

LMs provide just the right amount of information for a user to achieve a specific task and strengthen a clinical concept. Irrespective of the Clinical Odyssey title to which they belong, every LM includes:

- descriptive metadata for defining the main topic (subject and organ system covered, and learning topics covered);
- names of authors and peer reviewers;
- facts essential for comprehending the main topic;
- contextual information for narrowing the scope of the main topic;
- explanations for understanding all clinical reasoning pertinent to the main topic;
- facts, contextual information, and explanations of secondary topics;
- detailed citations and references supporting the knowledge provided in the LM; and

- discussion boards for engaging other users and the MJ medical team (optional).

Combined, these features have proven to make LMs powerful resources capable of delivering bite-sized knowledge with a big learning impact.

# Features

Find out what exactly makes Clinical Odyssey for Organizations the ideal digital learning resource for your university students and practicing medical teams.

Clinical Odyssey for Organizations is a learning resource that combines clinical content, group management capabilities, and teaching methodology. Its features are designed to ensure that you can:

- present abundant clinical knowledge to users with different learning styles and needs;
- deliver a consistent, reliable, and optimal user experience; and
- manage students and teams effectively;

Keep reading to learn more about the product and how it can help you achieve your goals.

## 600+ fully cited and peer-reviewed LMs

Learning modules (LMs) come under four unique titles tailored to meet multiple learning styles and needs:

- **Clinical Sense:** interactive scenarios to help users improve their ability to appropriately manage a patient over time

(from presentation to admission to discharge and follow-up).

- **Explain Medicine:** reference articles to help users stay up to date and recall facts along with their underlying explanations (fact-explanation pairs).
- **Prognosis: Your Diagnosis:** interactive case studies to help users improve their abilities to identify the most appropriate investigations and optimal presentations of a condition or disease.
- **QBank Prepper:** multiple choice questions to help users focus their test-prep time on medical knowledge blocks that can be more easily understood and recalled.

## Concise clinical details and meta information

LMs provide just the right amount of information needed to achieve a specific task and strengthen a clinical concept. Every LM includes:

- metadata defining the subject, organ system, and learning topics covered;
- names of the author and peer reviewers;
- facts essential for comprehending the main topic;
- contextual information for narrowing the scope of the main topic;
- explanations for understanding all clinical reasoning pertinent to the main topic;
- facts, contextual information, and explanations of secondary topics;
- detailed citations and references supporting the knowledge provided in the LM; and

- discussion boards for engaging other users and the MJ medical team (optional).

## LM scripts and graphs

LMs with interactive functionality (scenarios, case studies, and MCQs) include scripts for administrators, text files that showcase an LM's entire content without any gameplay/user functionalities present. Scripts are an easy way to view story/contextual narration, questions, answer options, and explanations. Scenarios also include graphs that display all their flow paths, from story beginnings to their correct/incorrect endings. Both scripts and graphs are helpful for evaluating LMs prior to deciding on how best to use them.

## Device-agnostic admin and user consoles

Browser-based administrative and user consoles (optional) work in most screen sizes of almost any desktop and mobile device. With the administrative console you can create and manage individual users and groups, evaluate LMs prior to assigning them to anyone, view individual and group scores, lead LM-specific discussions, and export crucial user data for any further analyses. The user console lets individuals access their assigned LMs, view their progress, and engage in LM-specific discussions.

## Easy-to-use interface

Navigation and access functions within the administrative and user consoles are designed so that you can focus on what truly matters: your users and their skills improvement. Navigation is simple and intuitive, while functionalities are comprehensive yet clearly indicated. Clinical Odyssey for Organizations

also includes an extensive help section, letting you find answers to any questions you might have quickly and easily.

## Flexible group and course setup

Users can be organized and managed under groups, while LMs can be organized and managed under courses. This way, a group can then be assigned to one or more courses, simplifying how you keep track of what users are accessing which content. Groups and courses can be named however you want, updated regularly, and retired, ensuring that they match your organization's evolving administrative structures.

## Performance analytics

Five pre-set reports provide in-depth understanding of users' learning progress:

- **Group performance (aggregated):** for analyzing the performance of a user group as a whole, in a specific course; with results listed per LM.
- **Group performance (disaggregated):** for analyzing the performance of individual users with a specific LM, in a defined group and course; with results listed per user.
- **User performance:** for analyzing the performance of a single user with a specific LM; with results listed per course.
- **LM performance (aggregated):** for analyzing how a specific LM in a course has been answered by users (in a group, or by the entire user body); with results listed per LM decision point.
- **LM performance (disaggregated):** for analyzing how a single user has answered a specific LM in a course; with results listed per LM decision point.

# Extended analytics

Real-time system use data is available for when you want to understand users' interactions with Clinical Odyssey for Organizations in depth and its overall cost-effectiveness:

- Geographic access points (country, region, and city);
- timestamps for all events;
- counts for system uses;
- counts for LMs selected for preview (whether played or not);
- counts for LMs started (whether finished or not);
- counts for LMs completed (whether with or without a final score);
- counts for LMs played (overall and at any point in time);
- counts for LM results screens viewed;
- counts for LM explanation screens viewed;
- counts for LM discussions viewed;
- counts for LM decision points viewed (for scenarios only);
- counts for LM decision points skipped (for scenarios only)

# Quality Assurance

Discover what makes our case studies, scenarios, reference articles, and MCQs reliable learning resources for healthcare professionals worldwide.

The titles offered under Clinical Odyssey for Organizations are carefully designed to meet strict medical, didactical, technological, and user experience specifications that maximize their learning effectiveness. Read more to discover what makes every Clinical Sense adventure scenario, Explain Medicine reference article, Prognosis: Your Diagnosis case study, and QBank Prepper MCQ a reliable learning publication for healthcare professionals worldwide.

## A creative process built on meticulous attention to detail

In Clinical Odyssey for Organizations, new learning modules (LMs) are published regularly while existing LMs are updated regularly as well. LMs are written in-house by our team of experienced and carefully-vetted clinicians, and peer-reviewed by one or more members of our International Medical Board (the MJ IMB). IMB members are experienced professionals accredited by the governing body in their country of practice, or senior specialist

trainees enrolled in a fully accredited medical academic program.

Creating an LM takes plenty of attention to detail and lots of practice. The process consists of five stages, each with one or more quality checks to ensure that the work we do is of the highest standard. Additionally, three of our five creation stages are purely about quality control:

- draft writing
- compliance reviews (CRs)
- editorial review
- International Medical Board (IMB) review
- final approval

At Medical Joyworks, a CR consists of an exhaustive set of criteria used to revise and evaluate our authors' work. For instance, the CR for an Explain Medicine reference article—the smallest of our LM types—covers 43 criteria split across three categories: structural, text, and medical quality. All LMs must attain a perfect CR score of 100% before they can advance to the next creation stages.

An LM's editorial review is done by Medical Joyworks's editor-in-chief. This inspection ensures that the LM's CR didn't miss anything. Our editor-in-chief also helps guarantee that the LM's tone and style are consistent with those found across all of our publications.

The IMB review is a peer-review process validating the realistic nature and academic quality of our work. We like to view our LMs as a form of scholarly publication with real-life applications. Therefore, we uphold their quality and validity as such with the help of our IMB members. There are more than 180 recognized specialist physicians from around

the world in our IMB Program. These professionals are actively working in academia, government, and industry; and one or more may be involved in revising a single LM.

In the final approval stage, LMs are revised one more time by our team to ensure that all inputs, edits, and corrections have been taken into account. If something is not right, we will fix the problem immediately. We will also assess (then and there) the root cause of the problem identified, taking whatever steps necessary to make certain that the same mistake is not repeated later.

## **Discussion boards, customer support, and continuous improvements**

Ensuring the quality of our LMs goes well beyond the process of creating them. In fact, we conduct periodic reviews of our content to certify that they are accurate, up to date, and complete.

Moreover, every conversation with you in discussion boards, product reviews, emails, and calls is used to assess our work's effectiveness. We carefully analyze these interactions to determine whether an LM is delivering as promised, including whether your users can understand it fully. If something is not right, we will acknowledge it and resolve it immediately. We will also determine the root cause of the issue, taking whatever steps necessary so that the same mistake is not repeated later.

With a team of physicians, specialists, language experts, programmers, and production engineers behind all of our work, it is no wonder that you can always rely on our different titles and their library of LMs!

# Pricing

Clinical Odyssey for Organizations charges for the number of active end users (students, physicians, other HCPs) during any month, and any optional features and customizations you choose to include. Billing and payment options are flexible, helping your organization quickly secure a return on its investment.

## Pricing details

You are charged for the number of active end users within a 30 day cycle, irrespective of which learning modules or other product functions and features have been accessed by your end users. This calculation is done by counting the unique end user accounts that are active within a 30 day cycle. Cycles commence on the first day that you begin using the product. Cycles with no active users will not be billed, unless your billing and payment options state otherwise.

There are no charges for administrator accounts, faculty accounts, the cloud-based administrative console, MJ physician-managed discussion boards (where our clinical answers questions posted by your end users), end user performance analytics queries, new content or existing content updates, helpdesk services for technical inquiries, or how-to documentation providing guidance for using the product.

## Additional costs (optional)

Deployments on a server belonging to your organization, integrations into your learning management system (LMS), content recommendations for particular course or training curricula, in-person assistance for initial group or course setup, in-person

assistance for learning to use the product, or organization-specific customizations are billed at standard MJ hourly service rates.

## Rates

### Per active end user

- Each active end user: **variable, and quoted monthly or yearly.** Organizations with 250 or more end users may be eligible for discounts.

### Additional costs (optional)

- Integration into your institution's LMS: starting at **\$1,040.**
- In-person assistance for initial group/course setup (for customers using the cloud-based administrative console): starting at **\$520.**
- In-person assistance for learning to use the product (for customers using the cloud-based administrative console): starting at **\$520.**
- Deployment on a server belonging to your organization: starting at **\$1,040.**
- Content recommendations for course or training curricula: starting at **\$1,040.**

## Billing options

Your organization may choose to pay Medical Joyworks directly; or have your end users pay Medical Joyworks directly; or do a mix of both.

# Privacy and security

We take considerable care of respecting the personal data privacy and security of all our users. Below are just some of the things we do to ensure your privacy and security:

- Secured using SSL (RSA 4096 bits).
- FERPA Compliant.
- GDPR Compliant.
- All credit card payments (when end users pay directly to Medical Joyworks) are managed via Stripe. Stripe is a PCI Service Provider Level 1.

# Authors

Every scenario is written in-house by our team of clinicians. Below are the names and backgrounds of each individual who has authored one (or more) of our scenarios.

## Hilal Abdessamad MD

Dr. Abdessamad is a senior resident in internal medicine at the Lebanese American University Medical Center, in Beirut. He has published several peer-reviewed research publications in the field of oncology; and serves as a freelance medical writer, focusing on professional audiences. Dr. Abdessamad holds a BS in Medical Laboratory Sciences and received his MD from the University of Balamand (all institutions from Lebanon).

## Dinuka Ariyaratne MBBS MS

Dr. Ariyaratne is a PhD candidate in Immunology at the University of Sri Jayewardenepura, in Sri Lanka. She also holds a MSc in Cellular and Molecular Immunology from the University of Colombo. Prior to her research career, she worked in the Hematology and Nephrology units of the National Hospital of Sri Lanka. Dr. Ariyaratne received her MBBS from the University of Sri Jayewardenepura, in Sri Lanka.

## Afkar Aulia MD MS

Dr. Aulia is a senior resident in psychiatry at Universitas Gadjah Mada (UGM), in Indonesia; and a lecturer in psychiatry at the Faculty of Medicine, Public Health and Nursing, UGM. Dr Aulia's areas of interest include community mental healthcare provision, telepsychiatry, and psychogeriatrics. He obtained his MD from UGM, and an MSc in Clinical Medical Science from UGM.

## Andrea Boutros MD

Dr. Boutros is a resident in medical oncology at the Teaching Hospital of the University of Genoa, in Italy. He also conducts research on immunotherapy for skin cancer, at the Skin Cancer Unit of the Policlinico San Martino Hospital. Along with his clinical work, Dr. Boutros serves as a freelance medical writer targeting professional audiences. He received his M.D. with honors from Genoa University.

## Neil Chavarría MD

Dr. Chavarría is an aspiring internal medicine physician, having worked part-time as a medical writer throughout his medical studies. Dr. Chavarría graduated from the Universidad de Iberoamérica in San José, Costa Rica. He has achieved certification from the American Education Commission of Foreign Medical Graduates (ECFMG), after completing the United States Medical Licensing Examination (USMLE).

## Obinna Chukwuka MBBS

Dr. Chukwuka is a resident in internal medicine at the University of Nigeria Teaching Hospital, in Ituku-Ozalla, where he aims to subspecialize in either pulmonology or nephrology down the line. Previously, Dr. Chukwuka served as the acting medical director of a rural hospital. He received his MBBS from the College of Medicine, University of Nigeria.

## Branka Donevska MD

Dr. Donevska is a resident at Echuca Regional Health in Victoria, Australia. Prior to her residency, she spent more than 2 years working for the professional development unit

at Eastern Health, one of Melbourne's largest health care services. Dr. Donevska was born and raised in North Macedonia, graduated from St. Petersburg Pavlov State Medical University, in Russia; and specialized in Obstetrics & Gynaecology in Moscow.

## **Yi Chao Foong MBBS**

Dr. Foong is a neurology advanced trainee at Barwon Health in Victoria, Australia. He attended University of Tasmania graduating with first class honours; and has published several peer-reviewed publications and presented at numerous international and national scientific conferences. Dr. Foong was a clinical lecturer at the University of Tasmania. He is also on the editorial board for The Journal of Sports Medicine and Physical Fitness, and remains actively involved in medical education.

## **Ernesto Lopez MD**

Dr. Lopez is a lecturer in basic sciences at the Metropolitan University of Antigua, with additional experience as a medical educator for universities and medical student organizations throughout the Caribbean. Dr. Lopez received his MD with honors from the Universidad Nacional Pedro Henríquez Ureña, in the Dominican Republic. He also achieved certification from the American Education Commission of Foreign Medical Graduates (ECFMG), and will be pursuing a residency in internal medicine in the United States.

## **Ciaran Mooney MSc FRCPATH**

Mr. Mooney is a clinical scientist at the Rotunda Hospital, in Dublin, with 18 years of experience in haematology and transfusion medicine; and working in the private and public health sectors of Australia, Ireland, UK, and the United States. He has been a lecturer at the Dublin Institute of Technology and has

also created medical educational apps for the iOS and Android platforms. In addition, he is an active member of the British Standards of Haematology (BSH) steering committee, involved in numerous guideline updates. Mr. Mooney holds a FRCPATH in Clinical Science and Haematology, a MSc in Tropical Medicine from James Cook University, and a basic degree in medical sciences from the University of Tasmania.

## **Ana Sofia Pessoa MMed**

Dr. Pessoa is an internist with an interest in geriatric medicine and clinical nutrition. She has done a rotation in geriatric medicine at Oxford University, and has participated as a lecturer on various subjects of clinical nutrition throughout multiple conferences. Dr. Pessoa holds a Bachelor and Master of Science in Medicine from the Faculty of Medicine of the University of Porto, in Portugal.

## **Jordan G Roberts PA-C**

Mr. Roberts is a CME medical writer, a neuroscience clinician with experience in neurosurgery and psychiatry, and an entrepreneur. Mr. Roberts is the CEO of Modern MedEd, has published multiple papers exploring the long-term effects of traumatic brain injury, and has spoken at regional and national conferences on the topic. He holds a Master of Science from the New York Institute of Technology PA (physician assistant) program and is the chair of the CME committee for the Illinois Academy of PAs.

## **Stanley Sack MD FAAP**

Dr. Sack has over 30 years of experience as a general pediatrician. While practicing medicine part-time, he also works as a freelance medical writer for professional and lay audiences, and is the Senior Editor of Medical Joyworks, LLC. Dr. Sack is a former

community faculty member at the University of Massachusetts Medical School, and completed his undergraduate education at Dartmouth College. In addition, he received his M.D. at Hahnemann University and completed his pediatric residency at Tulane University Affiliated Hospitals (all institutions in the United States of America).

## **Nayana Somaratna MBBS**

Dr Somaratna is the CEO and Co-Founder of Medical Joyworks, LLC, with almost 20 years of entrepreneurship and business experience. In 2015 he created Clinical Sense, leading the design and development of its technology, and authoring many of its first clinical scenarios. Dr. Somaratna holds a MBBS from the University of Kelaniya, and a Bachelor of Information Technology (Honors) degree from the University of Colombo (all institutions in Sri Lanka).

## **Phalguni Srivatsava MBBS**

Dr. Phalguni is a senior trainee in anesthesia at Swami Dayanand Hospital, New Delhi. Prior to entering postgraduate training, she worked in the Kamad Polyclinic and Trauma Center for 3 years. Dr. Phalguni received her MBBS from the Himalayan Institute of Medical Sciences, in Dehradun, India.

## **Ahmad Abu Srour MD**

Dr. Abu Srour is a urologist at the Damascus University Hospital, in Syria. Previously, he was a general practitioner for over 6 years. Dr. Abu Srour has a strong interest in medical education and has written medical articles for professional audiences. Dr. Abu Srour received his MD from Damascus University.

## **Isuri Wimalasiri MBBS**

Dr. Wimalasiri is a lecturer at the Faculty of Medicine, General Sir John Kotelawela Defence University, in Sri Lanka. She also is pursuing her MD in psychiatry at the Postgraduate Institute of Medicine, Colombo. In her free time, Dr. Wimalasiri works as a freelance medical writer for professional audiences. She won the Dr. Bobby Somasundaram Gold Medal for the most outstanding performance in the MD (Psychiatry) selection exam in 2018, and her research studies have been published both locally and internationally. Dr. Wimalasiri is a member of the ethics committee of Sri Lanka Medical Association. She received her MBBS from the University of Sri Jayewardenepura, in Sri Lanka.

# International Medical Board

Every scenario is peer reviewed by one or more members of our International Medical Board (IMB). IMB members are experienced professionals accredited by the governing body in their country of practice, or senior specialist trainees enrolled in a fully accredited medical academic program.

Below are the names and backgrounds of our International Medical Board members.

## Allergy & Immunology

---

### **Dr. Emanuele Vivarelli, MD Allergy & Clinical Immunology Fellow**

Consultant Physician

*Careggi Hospital, Florence, Italy*

## Cardiology

---

### **Dr. Amer Ali Bilal Hamed, MBChB MSc**

Locum Consultant Cardiologist

*Interact Medical Locum Agency, Swansea, United Kingdom*

### **Dr. George Bazoukis, MD MSc**

Resident in Cardiology

*Evangelismos Hospital, Athens, Greece*

### **Dr. Gilberto Moschetta**

Attending Physician

*Sociedade Médica São Marcos, São Marcos, Brazil*

### **Dr. Hassan Aghajani, MD FSCAI**

Assistant Professor

*Tehran University of Medical Sciences, Tehran, Iran*

### **Dr. Ian Goh, MBBS**

Cardiology Research Fellow

*University Hospital Geelong, Geelong, Australia*

### **Dr. Mahmoud Ahmed Tantawy, MD FACC FESC**

Consultant Cardiologist

*Misr University for Science and Technology, Giza Governorate, Egypt*

### **Dr. Mishal Hussein Mahgoub Hassan, MBBS MSc**

Lecturer

*Almadain College of Medical Sciences and Technology & Alshaab teaching hospital, Khartoum, Sudan*

### **Dr. Muhammad Sani Isa, MBBS FWACP**

Consultant Cardiologist

*Abuth Zaria University, Zaria, Kaduna State, Nigeria*

### **Dr. Thacker Meet, MBBS MD**

Senior Resident in Cardiology

*Sri Jayadeva Institute of Cardiovascular Sciences and Research, Bangalore, India*

## Clinical Pathology

---

### **Prof. Geethanjali Bhas, MBBS MD Associate RCPATH (UK) MBA (Healthcare Management)**

Head of Department, Associate Professor of Pathology

*Tagore Medical College, Bangalore, India*

### **Dr. Hafsa Majid, MBBS FCPS (Chemical Pathology)**

Consultant Chemical Pathologist and Senior Instructor

*Aga Khan University, Karachi, Pakistan*

### **Dr. Konstantin Bräutigam, MD**

Resident

*Uni Bern, Bern, Switzerland*

**Dr. Libin Babu Cherian, MD DNB**

Assistant Professor  
*PK Das Medical College, Kerala, India*

**Prof. Shashidhar Venkatesh Murthy, BSc  
MBBS MD MBA**

Associate Professor & Head of Pathology  
*James Cook University - Townsville Campus,  
Townsville, Australia*

## Critical Care Medicine

---

**Dr. Adel Alsaied, MBBCh MD medicine**

Intensive Registrar  
*OHUD Hospital (MOH), Madina, Saudi Arabia*

**Dr. Anita Charochak, DO**

Specialist in Critical Care  
*Metro Health-University of Michigan, Michigan,  
United States*

**Prof Giacomo Tenze, MD**

Resident MD  
*Policlinico Universitario di Tor Vergata, Trieste,  
Italy*

**Dr. Guido Consolmagno,**

Resident  
*Careggi Hospital, Florence, Italy*

**Dr. Maab Ali, Clinical MD**

Registrar of Anaesthesia and ICU  
*Teaching Hospitals, Khartoum city, Sudan*

**Dr. Milap Thakrar, MD (Internal Medicine)**

Consulting Physician and Intensivist  
*Sadbhavna Hospital, Rajkot, India*

**Dr. Nishant Rajadhyaksha, MBBS**

Resident Anaesthesiology  
*National Board of Education, Pune, India*

**Dr. Parantap Trivedi, MD**

Resident in Anaesthesiology  
*Govt. Medical College and Sir T Hospital,  
Bhavnagar, India*

**Dr. Roshana Mallawaarachchi, MBBS MD**

Senior Registrar in Anesthesiology  
*Kandy Teaching Hospital, Kandy, Sri Lanka*

**Dr. Valeria Starace**

Anestesista-Rianimatore  
*Aurelia Hospital, Rome, Italy*

**Dr. Vitrag Shah, MBBS MD FNB**

Consultant Intensivist  
*Kiran Multi Super Speciality Hospital & Research  
Center, Surat, India*

## Dermatology

---

**Dr. Bijjo Raju, MBBS DDVL FHM**

Consultant Dermatologist  
*Shanthi Social Services Medical Centre,  
Coimbatore, India*

**Dr. Ivette Soto, MD**

Resident of Dermatology  
*Edgardo Rebagliati Martins Hospital, Lima, Perú*

**Dr. Rahul Tripathi, MBBS DNB**

Resident  
*GMERS Medical College and Civil Hospital,  
Gandhinagar, India*

**Dr. Silvan Frangaj, MD**

Consultant Dermatologist  
*Shkoder Regional Hospital, Shkoder, Albania*

## Diagnostic Radiology

---

**Dr. Simina Apostol, MD**

Resident in Radiology  
*Clinical Institute Fundeni, Bucharest, Romania*

## Emergency Medicine

---

**Dr. Andrea Almeida Reis, MBBS MBA MSc**

Senior Medical Consultant  
*Cigna, Madrid, Spain*

**Dr. Emmanuel Mucheni, MBChB (UZ) MCS  
(ECSEA)**

Senior Registrar  
*8th Avenue Emergency Clinic/ Mpilo Hospital,  
Bulawayo, Zimbabwe*

**Dr. Harshil Kirankumar Mehta, MBBS MD  
MRCEM FACEE**

Consultant  
*Shalby Hospital, Ahmedabad, India*

**Dr. John Ang, MBBS**

Emergency Registrar  
*Royal Adelaide Hospital, Adelaide, Australia*

**Dr. Kurreeman Enayat Hussein, MD**

Emergency Physician  
*Hospital, Mauritius, Mauritius*

**Dr. Michael Forzano, MD**

Attending Physician in Emergency Medicine  
*St. Anne's Hospital, Fall River, MA, United States*

**Dr. Regina Hammock, BSc DO FAAEM  
FACOEP**

Attending Physician, Program Director - Emergency  
Medicine  
*Coney Island Hospital, New York, United States*

**Dr. Ricardo Jonathan Ayala Garcia, MD**

Resident in Emergency Medicine  
*Hospital Nacional Edgardo Rebagliati Martins,  
Universidad Nacional de Piura-Universidad  
Nacional Mayor de San Marcos, Lima, Peru*

**Dr. Robert Inga, MD**

Medical Doctor, Emergency Medicine  
*International Clinic/ Hospital Dos de Mayo, Lima,  
Peru*

## Endocrinology

---

**Dr. Khalid Hussain Mazari, MBBS DIP-DIAB**

Consultant Diabetologist  
*Al Hayat Hospital, Rahim Yar Khan, Pakistan*

**Dr. Mohammed Imtiaz, MBBS MSc MRCP  
(UK)**

Clinical Endocrinologist  
*Qurayyat General Hospital, Quarayyat, Saudi  
Arabia*

**Dr. Natasha Patel, FRCP EMBA**

Consultant Diabetologist  
*Guys and St Thomas' Hospital, London, United  
Kingdom*

**Dr. Ravena Massucatto, MD**

Endocrinologist  
*Clínica Massucatto, São Paulo, Brazil*

## Family Medicine

---

**Dr. Carlos Aldana, MD**

Medical Coordinator  
*Colsanitas, Bogotá D.C, Colombia*

**Dr. Hattan Momin, MD**

Senior Registrar in Family Medicine  
*New Jeddah Clinic Hospital, Jeddah, Saudi Arabia*

**Dr. Stuart N. Damon, DO**

Assistant Clinical Professor  
*University of New England College of Osteopathic  
Medicine, Biddeford, United States*

## Gastroenterology

---

**Dr. Naganathan Kathiresan Pillai, MBBS  
MRCP (Ire) FRCP (Ire) AM**

Associate Professor  
*Monash University, Segamat, Johor, Malaysia*

**Prof. Nooruddin Ahmad, MBBS FCPS**

Professor  
*Bangabandhu Sheikh Mujib Medical University,  
Dhaka, Bangladesh*

**Dr. Rabbinu Rangga Pribadi, MD**

Physician  
*Cipto Mangunkusumo National General Hospital,  
Jakarta, Indonesia*

**Dr. Sarah El Nakeep, MD**

Lecturer  
*Ain Shams University, Cairo, Egypt*

## General Surgery

---

**Dr. Abdulmajeed Mohamad, MS MRCS  
(Eng) FRCS (Ed) GS (Arab Board)**

Senior Clinical Fellow in General Surgery  
*The Rotherham NHS Foundation Trust,  
Rotherham, United Kingdom*

**Dr. Alejandro Rafael Cárdenas del Olmo,  
MD**

Consultant Surgeon  
*Juan Graham Casusus General Hospital,  
Villahermosa, Mexico*

**Dr. Ali Al Bayaty, MB ChB FIBMS GS FIBMS  
(GI Surgery)**

Consultant Surgeon  
*Al Kindy Teaching Hospital, Baghdad, Iraq*

**Dr. Amoun Boutros, FCCS FEBS ATLS**

Consultant Surgeon  
*El-Hayat Hospital, Cairo, Egypt*

**Dr. Benjamin Reyes M., MD**

General Surgeon  
*Instituto de Especialidades Medicas, Moca,  
Dominican Republic*

**Dr. Dang Tuan Pham, MD FACS FASMBS**

Chair, Bariatric and Metabolic Surgery Program  
*Sisters of Charity Hospitals of Buffalo, Catholic  
Health System, Buffalo, NY, United States*

**Dr. Terry Lu, MBBS**

General Surgical Registrar  
*Launceston General Hospital, Launceston,  
Australia*

**Dr. Vadym Sribnyi, MD**

General Surgeon  
*Vyshgorod Central District Hospital, Vyshgorod,  
Ukraine*

**Dr. Ying Yang Ting, MBBS**

Surgical Registrar  
*Royal Adelaide Hospital, Adelaide, Australia*

## Geriatric Medicine

---

**Dr. Eric Ouambo Toumping, MD**

Physician  
*Groupe Hospitalier Public Sud de l'Oise, Boulevard  
Laennec, France*

**Dr. Hazem Hussein, MD**

Geriatric Specialist  
*Obaidallah Geriatric Hospital, Al Nakheel, United  
Arab Emirates*

## Hematology

---

**Dr. Ahmad Zargari, MBBS**

Haematology Registrar  
*Alfred Health, Melbourne, Australia*

**Dr. Zeeshan Ahmed, MBBS FCPS**

Assistant Professor  
*The Aga Khan University Hospital, Karachi,  
Pakistan*

## Infectious Disease

---

**Dr. Annarita Botta, MD**

Specialist Trainee in Infectious Diseases  
*University Hospital Careggi, Florence, Italy*

**Dr. Diana van Stijn, MD**

PhD Candidate  
*Academic Medical Center, Leiden University,  
Almere, Netherlands*

**Dr. Erni Nelwan, MD PhD**

Consultant in Infectious Disease  
*MMC Hospital, Jakarta, Indonesia*

**Dr. Lorenzo Roberto Suardi, Medicine and  
Surgery**

Resident in Infectious Diseases  
*Careggi General Hospital- Infectious Diseases  
Unit, Florence, Italy*

**Dr. Ludovico Cobuccio, MD**

Chief Resident

*Center for General Medicine and Public Health,  
Lausanne University, Lausanne, Switzerland*

**Prof. Sajithkumar Radhakrishnan, MBBS  
MD PhD**

Professor of Infectious Diseases & Medical  
Education

*Government Medical College, Kottayam, Kerala,  
India*

**Dr. Sean Ong, MBBS MRCP (UK) MMed  
DTMH (Gorgas)**

Senior Resident

*National Centre for Infectious Diseases, Singapore,  
Singapore*

## Internal Medicine

---

**Dr. Ahmedou Neda, MD**

Attending Physician

*Hamad Ben Khalifa Hospital, Doha, Qatar*

**Dr. Amin Obadi Ali, MD**

Consultant Physician

*Aden University, Aljomhoryea Universal Hospital,  
Aden, Yemen*

**Dr. Andrew Jensen, MBBS**

Medical Registrar

*University Hospital Geelong, Geelong, Australia*

**Dr. Etienne Lengline, MD**

Attending Physician

*Hôpital Saint-Louis, Paris, France*

**Dr. Habib Shams, MD**

Specialist in Internal Medicine, Consultant  
Internist, Assistant Clinical Professor, Head of  
Special Diseases Department

*Madani Hospital & Ghamar Bani Hashem  
Hospital, Khoy, Iran*

**Dr. Hosein Ghasemi Moghaddam, MD**

Consultant Physician

*Tabriz International Hospital and Tabriz Sina  
(University) Hospital, Tabriz, Iran*

**Dr. Imal Hemachandra, MBBS DTMH**

General Medicine Advanced Trainee

*Royal Darwin Hospital, Tiwi, Australia*

**Dr. James Coyle, DO**

Hospitalist

*US Government, Colorado Springs, United States*

**Dr. Joel Charles Pelissier, MD**

Physician

*Lee Memorial Hospital, Fort Myers, United States*

**Dr. John May, MBBS**

Medical Registrar

*University Hospital Geelong, Geelong, Australia*

**Dr. José Antonio de la Parra Calderón, MD**

Consult and Research Assistant

*Instituto de Corazón de Querétaro, Querétaro,  
México*

**Dr. Juan Carlos Pinto Conde, MD**

Attending Physician

*Hospital Angeles Clinica Londres, Ciudad de  
México, Mexico*

**Dr. Juan S. Peinado Acevedo, MD**

Medical Doctor

*Hospital San Vicente Fundación, Medellin,  
Colombia*

**Dr. Kirti Gaurav Raizada, MBBS DNB**

Senior Resident (General Medicine)

*Northern Railway Central Hospital, New Delhi,  
India*

**Dr. Kumkum Mishra, MBBS MSc MRCP  
LRCP LRCS**

General Practitioner

*Edgwick Medical Centre, Coventry, United  
Kingdom*

**Dr. Madoka Maemyoriki,**

Physician

*Kurashiki Kinen Hospital, Okayama Prefecture,  
Japan*

**Dr. Martha Rosana, MD**

Internal Medicine Resident

*Cipto Mangunkusumo Hospital, Jakarta,  
Indonesia*

**Dr. Michael Fernando, MBBS**  
Medical Registrar  
*University Hospital Geelong, Geelong, Australia*

**Dr. Milton Valderrama, MD**  
Attending Physician  
*Hospital Nacional Edgardo Rebagliati Martins,  
Lince District, Perú*

**Dr. Mohamed Alhazaa, MD**  
Internal Medicine Specialist  
*National Maaret al-Numan Hospital, Idlib, Syria*

**Dr. Mohammad Yousef Awan, MBBS FCPS  
CESR CCST FACP MAoMED**  
Consultant Physician  
*Huddersfield Royal Infirmary, Huddersfield,  
United Kingdom*

**Dr. Moji Ariyo, MD FACP**  
Assistant Professor of Medicine  
*Emory University, Atlanta, United States*

**Dr. Nishant Tripathi, MBBS MD**  
Consultant Hospitalist  
*Apogee Physicians, Iowa, United States*

**Dr. Rishikesan K.V., MBBS MD DNB  
Diploma in Echocardiography**  
Specialist Physician  
*Venniyil Medical Centre, Sharjah, United Arab  
Emirates*

**Dr. Rosene Briones, MD**  
Medical Specialist  
*Metro San Jose Medical Center, Manila,  
Philippines*

**Dr. Rubina Inamdar, MBBS MRCP**  
Senior Specialist Registrar in Internal Medicine  
*Rashid Hospital, Dubai, United Arab Emirates*

**Dr. Sagun Banjade, MBBS**  
General Medicine Advanced Trainee  
*University Hospital Geelong, Geelong, Australia*

**Dr. Salvador Lopez, MD FCCN FISN**  
Attending Physician  
*Zacatecas General Hospital, Guadalupe, México*

**Dr. Shih-Ying Lee, MD LLM**  
Attending Physician  
*West Garden Hospital, Taipei City, Taiwan*

**Dr. Silvia Guedes Bernardi Taddeo, MD**  
Attending Physician  
*Universidade Extremo Sul Catarinense, Criciúma -  
SC, Brazil*

**Dr. Tushar Vidhale, MBBS**  
Resident  
*Command Hospital Air Force, Bangalore & Rajiv  
Gandhi University of Health Sciences, Karnataka,  
India*

**Dr. Vasco Gabriel Furtado Gonçalves, MD**  
Attending Physician  
*Unidade Local de Saúde do Norte Alentejano, EPE,  
Elvas, Portugal*

**Dr. Yaser Hussein Mohammed Alwali, MD  
(2003) Arab Board Certificate of Internal  
Medicine (2015)**  
Internal Medicine Physician  
*Algomhariah Hospital, Aden, Yemen*

## Medical Oncology

---

**Dr. Barbara Scola, MBBS MD**  
Medical Assistant  
*GB Mangioni Hospital, Lecco, Italy*

## Nephrology

---

**Dr. Farid Girgis Ghalli, MBBCh MSc MD  
MRCP (UK) MRCP (Neph) MACadMED**  
Consultant Nephrologist  
*Brighton and Sussex University Hospitals,  
Brighton, United Kingdom*

## Neurological Surgery

---

**Dr. Tiago Ribeiro da Costa, MD**  
Neurosurgical Trainee  
*Centro Hospitalar Universitario do Porto, Porto,  
Portugal*

## Neurology

---

**Dr. Alex Chen, MBBS**

Neurology Fellow

*University Hospital Geelong, Geelong, Australia*

**Dr. Andrew Ma, MBBS**

Neurology Advanced Trainee

*Alfred Health, Melbourne, Australia*

**Dr. Anne He, MBBS**

Neurology Fellow

*National Hospital for Neurology and Neurosurgery, London, United Kingdom*

**Dr. Antônio Catharino, MD**

Professor of Neurology

*Iguaçu University, Niterói, Brazil*

**Dr. Fabiano de Melo Peixoto, MD**

Neurologist

*University of Sao Paulo, Ribeirão Preto, Brazil*

**Dr. Fariha Islam, B. Psych (Hons) MBBS  
FRACP**

Neurologist

*Movement Disorders Clinic & Eastern Cognitive Disorders Clinic, Neurology Department, Eastern Health, Box Hill, Australia*

**Dr. Mario Daniel Echeverría Martínez, MD  
DIP-Neuroradiology**

Neuroradiologist

*Instituto de Neurocirugia, Santiago, Chile*

**Dr. Steven Zuckerman, MD**

Consultant Neurologist

*Tulane University, Louisiana, United States*

**Dr. Wassef Al-Kassam, MD**

Specialist in Neurology

*Yemen German Hospital, Sanaa, Yemen*

## Obstetrics & Gynecology

---

**Dr. Aliou Diouf, MD**

Physician (Obstetrics & Gynecology)

*St-Louis Hospital, St-Louis City, Senegal*

**Dr. Amanda Wee, MBBS MRMed  
DRANZCOG**

Obstetrics and Gynaecology Registrar

*Redcliffe Hospital, Redcliffe, Australia*

**Dr. Avijit Basak, MBBS (Cal) MS (G&O)  
DMAS F.MAS (WALS) FWAMS FIAOG**

Consultant, Obstetrician, Gynecologist and Laparoscopic Surgeon

*Private Practitioner, Kolkata, India*

**Dr. Veleka Willis, MD FACOG**

Assistant Clinical Professor

*New York-Presbyterian/Columbia University, Allen Hospital, New York, United States*

**Dr. Victor Chin, MBBS MRCOG**

Obstetrics and Gynaecology Fellow

*Royal Women's Hospital, Melbourne, Australia*

## Ophthalmology

---

**Dr. Ruggiero Paderni, MD**

Consultant Ophthalmologist

*Humanitas Mater Domini Hospital, Castellanza, Italy*

## Oral & Maxillofacial Surgery

---

**Dr. Eduardo Ventura, MD DDS**

Oral and Maxillofacial Surgery Resident

*Centro Hospitalar Universitario do Porto, Porto, Portugal*

## Orthopedic Surgery

---

**Dr. Gurgen Bakhtamyan, MD**

Orthopedic Surgeon

*Izmirlian Medical Center, Yerevan, Armenia*

**Dr. Hans-Joachim Pöessel, MD MBA PhD**

Consultant Orthopedic Surgeon

*MediClinic Hospital Airport Road, Abu Dhabi,  
United Arab Emirates*

## Pediatric Surgery

---

**Dr. Oguz Kizilkaya, MD**

Resident in Pediatric Surgery & Research Assistant

*Trakya University, Edirne, Turkey*

## Pediatrics

---

**Dr. Beth Studley, MBBS**

Pediatric Surgical Registrar,

*Canberra Hospital, Australian Capital Territory,  
Australia*

**Dr. Doaa Ashraf, MSc**

Assistant Lecturer of Pediatrics

*Beni Suef University, Beni Suef, Egypt*

**Dr. Eduardo Tomas Alvarado, MD**

Pediatrician

*Universidad Nacional Autónoma de México,  
México, México*

**Dr. Mino Saeidi, MD**

Assistant Professor of Pediatrics

*Isfahan University of Medical Sciences, Imam  
Hussein Children Hospital, Isfahan, Iran*

**Dr. Sarah Allen, MBBS**

Paediatrics Registrar

*Royal Adelaide Hospital, Adelaide, Australia*

**Dr. Stanley Sack, MD FAAP**

Member, Pediatrician

*Community Health Initiative of South Florida,  
Marathon, United States*

**Dr. Theodoros Kontogiannis, MD**

**FEB-ORL-HNS**

Clinical Fellow

*Great Ormond Street Hospital for Children,  
London, United Kingdom*

**Dr. Ulises Padilla, MD**

Pediatrician

*Children's Hospital "Dr. J. M. de los Ríos",  
Caracas, Venezuela*

**Dr. Vishal Parmar, MBBS DCH MRCPCH**

Clinical Associate

*SRCC Children Hospital, Mumbai, India*

**Dr. Weyinmi Erikowa, MD MSc PhD**

Paediatrician

*Community Health, Leeds, United Kingdom*

## Physical Medicine & Rehabilitation

---

**Dr. James Eubanks, MD DC MS**

Resident Physician

*University of Pittsburgh Medical Center (UPMC),  
Pittsburgh, United States*

**Dr. Moriko Suharis, MD PMR Specialist**

Physiatrist

*Country Hospital Boejasin Pelaihari, South  
Borneo, Indonesia*

## Psychiatry

---

**Dr. Mehmet Gokbakan, MD**

Consultant Psychiatrist

*Erenkoy Mental Health Hospital, Istanbul, Turkey*

**Dr. Soumen Karmakar, MBBS**

Junior Resident

*Calcutta National Medical College, Kolkata, India*

**Dr. Sérgio Saraiva, MD**

Consultant Psychiatrist

*Hospital Prisional de São João de Deus, Lisbon,  
Portugal*

**Dr. Tejas Patel, MBBS MD**  
Assistant Professor of Psychiatry  
*GMERS Medical College, Gandhinagar, India*

**Prof. Petros Sountoulides, MD PhD FEBU**  
Consultant Urological Surgeon  
*Aristotle University of Thessaloniki, Thessaloniki, Greece*

## Pulmonary Disease

---

**Dr. Jitendra Sisodia, MD**  
Associate Professor  
*Medical College Baroda and M.S. University, Vadodara, India*

**Dr. Shahid Pervaiz, MBBS DTCD**  
Consultant Pulmonologist  
*Sahiwal Medical College and Hospital Sahiwal, Sahiwal, Pakistan*

## Rheumatology

---

**Dr. Alejandro Martinez, MD**  
Consultant Rheumatologist  
*Clinics Dr. CARAM and OSECAC, Buenos Aires, Argentina*

**Dr. Basant El Nady, MD PhD**  
Consultant Rheumatologist  
*Benha University, Benha, Egypt*

## Sports Medicine

---

**Dr. Ayman Tarabishy, MD**  
Medical Director  
*Enhance Center for Interventional Spine and Sports, Michigan, United States*

## Urology

---

**Dr. Ahmad Abu Srouf, MD MSc**  
Urological Surgeon  
*Al-Assad University Hospital, Damascus, Syria*

**Dr. Osama Ali, FEBU**  
Consultant  
*Teaching Hospitals Institutes, Zagazig, Egypt*

## Vascular Surgery

---

**Prof. Yonde Kafruni, MD**  
Professor of Physiopathology  
*Medical School, Experimental National University Romulo Gallegos Guarico, Valle de la Pascua City, Leonardo Infante County, Venezuela*

# Learning Module Directory

## Medicine

---

**MCQ-M-015: ACE inhibitors, adverse effects**  
Cardiovascular Diseases

**CS-M-005: Acidosis**  
Emergency Medicine, Critical Care Medicine,  
Diabetes, Medical Toxicology

**PD-M-187: Acoustic Neuroma**  
Neurology

**PD-M-270: Acrokeratosis Paraneoplastica**  
Dermatology

**CS-M-073: Acromegaly**  
Endocrinology

**PD-M-238: Acromegaly**  
Endocrinology

**PD-M-105: Acute Cholangitis**  
Gastroenterology

**PD-M-148: Acute Encephalitis**  
Emergency Medicine, Neurology, Infectious Disease

**PD-M-117: Acute Intermittent Porphyrria**  
Hematology

**EM-M-010: Acute Kidney Injury**  
Nephrology

**CS-M-024: Acute Kidney Injury, Djenkolism**  
Nephrology, Medical Toxicology

**PD-M-258: Acute Liver Failure**  
Gastroenterology

**PD-M-244: Acute Mercury Poisoning**  
Emergency Medicine

**PD-M-116: Acute Myeloid Leukemia**  
Hematology, Hematology/Oncology

**CS-M-058: Acute Myeloid Leukemia,  
Pregnancy**  
Hematology/Oncology, Obstetrics

**PD-M-193: Acute Respiratory Distress Xn**  
Pulmonary Disease

**PD-M-069: Acute Respiratory Failure**  
Emergency Medicine, Pulmonary Disease

**EM-M-012: Acute pyelonephritis**  
Nephrology

**EM-M-004: Adrenal Crisis**  
Endocrinology

**PD-M-016: Adrenal Crisis**  
Emergency Medicine, Endocrinology

**CS-M-074: Advanced Cardiovascular Life  
Support**  
Cardiovascular Diseases

**CS-M-075: Advanced Cardiovascular Life  
Support**  
Emergency Medicine

**CS-M-068: Alcohol Use Disorder**  
Internal Medicine, Addiction Medicine

**PD-M-086: Alcoholic Hepatitis**  
Gastroenterology

**MCQ-M-016: Alpha blockers, adverse effects**  
Cardiovascular Diseases

**PD-M-050: Amebic Liver Abscess**  
Gastroenterology, Infectious Disease

**MCQ-M-017: Amphetamine, adverse effects**

Cardiovascular Diseases

**PD-M-250: Angiostrongyliasis**

Infectious Disease

**PD-M-079: Anismus**

Gastroenterology

**PD-M-179: Ankylosing Spondylitis**

Rheumatology

**PD-M-144: Anthrax, Cutaneous**

Infectious Disease, Dermatology

**CS-M-070: Anticoagulant-Related Bleeding**

Hematology

**PD-M-125: Antiphospholipid Syndrome**

Hematology, Immunology, Rheumatology, Vascular  
Neurology, Neurology

**PD-M-162: Aortic Dissection**

Emergency Medicine

**PD-M-218: Aortic Stenosis**

Cardiovascular Diseases

**PD-M-119: Aplastic Anemia**

Hematology

**CS-M-003: Arrhythmogenic Right  
Ventricular Cardiomyopathy**

Cardiac Electrophysiology

**PD-M-129: Aspergilloma**

Pulmonary Disease, Infectious Disease

**PD-M-151: Asthma**

Emergency Medicine, Pulmonary Disease

**EM-M-014: Asymptomatic Bacteriuria**

Urology, Infectious Disease

**CS-M-050: Atrial Fibrillation**

Cardiac Electrophysiology

**CS-M-069: Atrial Fibrillation**

Cardiovascular Diseases

**PD-M-152: Atrial Fibrillation**

Emergency Medicine, Cardiac Electrophysiology

**PD-M-264: Atrial Myxoma**

Cardiovascular Diseases

**PD-M-220: Atrial Septal Defect**

Cardiovascular Diseases

**EM-M-018: Atrial fibrillation**

Cardiac Electrophysiology, Internal Medicine

**MCQ-M-001: Atrial fibrillation**

Cardiac Electrophysiology

**MCQ-M-002: Atrial flutter**

Cardiac Electrophysiology

**MCQ-M-021: Atrioventricular block (1st,  
2nd, 3rd degree)**

Cardiac Electrophysiology

**MCQ-M-003: Atrioventricular block, 1st  
degree**

Cardiac Electrophysiology

**PD-M-121: Autoimmune Hemolytic Anemia**

Hematology, Immunology

**PD-M-245: BK Virus Nephropathy**

Nephrology

**PD-M-253: Babesiosis**

Infectious Disease

**CS-M-063: Basal Cell Carcinoma**

Dermatology

**CS-M-066: Basic Life Support**

Emergency Medicine, Cardiovascular Diseases

**PD-M-153: Basilar Migraine**

Emergency Medicine, Neurology

**PD-M-154: Bell's Palsy**  
Emergency Medicine, Neurology

**PD-M-038: Botulism**  
Infectious Disease

**PD-M-036: Bronchiectasis, Kartagener Xn**  
Pulmonary Disease

**PD-M-147: Brucellosis**  
Infectious Disease

**PD-M-155: Brugada Syndrome**  
Emergency Medicine, Cardiac Electrophysiology

**PD-M-032: Budd-Chiari Syndrome**  
Gastroenterology

**PD-M-112: Burkitt's Lymphoma**  
Hematology, Hematology/Oncology

**PD-M-191: COPD**  
Pulmonary Disease

**EM-M-028: COVID-19**  
Immunology

**PD-M-067: Calcium Pyrophosphate  
Deposition Disease**  
Rheumatology

**MCQ-M-018: Calcium channel blockers,  
adverse effects**  
Cardiovascular Diseases

**PD-M-064: Cannabinoid Hyperemesis  
Syndrome**  
Medical Toxicology, Emergency Medicine

**CS-M-043: Cardiac Tamponade**  
Cardiovascular Diseases

**PD-M-084: Cardiac Tamponade**  
Cardiovascular Diseases, Emergency Medicine

**EM-M-024: Cardiac tamponade**  
Cardiovascular Diseases

**PD-M-182: Carpal Tunnel Syndrome**  
Neurology, General Surgery

**CS-M-037: Cat-scratch Disease**  
Infectious Disease

**PD-M-236: Cavernous Sinus Thrombosis,  
Septic**  
Neurology

**CS-M-051: Celiac Disease**  
Clinical Lab Immunology & Allergy,  
Gastroenterology

**PD-M-106: Celiac Disease**  
Gastroenterology

**CS-M-001: Cellulitis**  
Diabetes, Infectious Disease

**CS-M-036: Cellulitis**  
Infectious Disease

**PD-M-004: Cerebral Venous Thrombosis**  
Neurology

**PD-M-040: Cervical Spondylotic Myelopathy**  
Neurology

**PD-M-259: Chagas Disease**  
Infectious Disease

**PD-M-023: Chancroid**  
Infectious Disease

**PD-M-209: Chlamydia**  
Infectious Disease

**PD-M-115: Chronic Lymphocytic Leukemia**  
Hematology

**PD-M-113: Chronic Myeloid Leukemia**  
Hematology, Hematology/Oncology

**CS-M-014: Chronic Obstructive Pulmonary  
Disease**  
Pulmonary Disease, Geriatric Medicine-IM

**PD-M-215: Chronic Stable Angina**

Cardiovascular Diseases

**PD-M-099: Chylothorax**

Pulmonary Disease

**PD-M-180: Cluster Headache**

Neurology

**PD-M-224: Coarctation Of The Aorta**

Cardiovascular Diseases

**CS-M-022: Cocaine Use**

Addiction Psychiatry, Addiction Medicine, Medical Toxicology

**MCQ-M-019: Cocaine toxicity**

Cardiovascular Diseases

**PD-M-089: Cocaine-associated Chest Pain**

Cardiovascular Diseases

**PD-M-185: Common Peroneal Nerve Palsy**

Neurology

**PD-M-195: Community Acquired Pneumonia**

Pulmonary Disease, Infectious Disease

**CS-M-007: Community-Acquired Pneumonia**

Infectious Disease, Family Practice

**MCQ-M-005: Congestive heart failure**

Cardiovascular Diseases

**PD-M-225: Constrictive Pericarditis**

Cardiovascular Diseases

**MCQ-M-006: Cor pulmonale**

Cardiovascular Diseases

**PD-M-080: Corrosive Ingestion**

Emergency Medicine, General Surgery, Gastroenterology

**CS-M-004: Crohn's Disease**

Gastroenterology, Immunology, Infectious Disease

**PD-M-035: Crohn's Disease**

Gastroenterology

**PD-M-265: Cryoglobulinemia**

Immunology

**PD-M-134: Cryptosporidiosis**

Infectious Disease, Pediatrics

**PD-M-234: Cushing's Disease**

Endocrinology

**PD-M-054: Cutaneous Leishmaniasis**

Infectious Disease, Dermatology

**CS-M-002: Deep vein thrombosis**

Emergency Medicine

**CS-M-072: Delirium, infection-induced**

Infectious Disease, Geriatric Medicine-IM, Geriatric Psychiatry

**EM-M-030: Dementia with Lewy Bodies**

Internal Medicine, Neurology, Geriatric Medicine-IM, Geriatric Psychiatry, Psychiatry

**PD-M-066: Dengue**

Infectious Disease

**PD-M-093: Dengue Myocarditis**

Cardiovascular Diseases, Infectious Disease

**CS-M-015: Dengue Shock Syndrome**

Infectious Disease, Critical Care Medicine

**PD-M-041: Diabetes Insipidus**

Endocrinology

**EM-M-023: Diabetic Foot Disease**

General Surgery, Endocrinology

**CS-M-016: Diabetic Ketoacidosis**

Diabetes, Emergency Medicine
